

Product Family	Related Model #	Part #	Product Description	List Price
Software	ZoomOut	ZO-Basic	ZoomOut is signal analysis software designed for viewing and analyzing very large RF signal files. Two main viewing windows provide both a macro view and a detailed view of the signals to be analyzed	\$15,000.00
Software	ZoomOut Module	ZO-RADAR	Adds Module for Radar/EW Signal Analysis and Table Creation SW	\$10,000.00
Software	ZoomOut Module	ZO-PWRTOOL	Adds Module for Advanced Analysis Tools and Direct Digital Downconversion	\$10,000.00
Software	ZoomOut-RS	RSCTRL	Instrument Control for Rohde & Schwarz FSW, SMW & IQW Test Equipment	\$15,000.00
Software	ZoomOut-RS	RSCTRL-LV	Real-Time Spectrum and Spectrogram Display based on FPGA Processing in SigPro	\$12,000.00
Software	ZoomOut-RS Module	RSCTRL-PDW	ZoomOut R&S Control Option: PDW Streaming - PDW Command Streaming to SMW	\$10,000.00
Software	ZoomOut-RS Module SP4000 only	RSCTRL-ATG	Adds Advanced Triggering Mode to FSW - R&S Control Module SW	\$30,000.00
Software	ZoomOut-RS Module SP4000 only	RSCTRL-FMT	Provides Freq Mask Triggering Mode to FSW - R&S Control Module SW	\$40,000.00
Software	ZoomOut	ZO-CELLVU	Software for LTE & 5G Physical Resource Blocks Analysis	\$12,000.00
Software	ZoomOut	ZO-QV-SPST	Analysis Software for simultaneously displaying up to four I/Q files side by side for detailed analysis + SpectrumStitch Module for Combining Multiple I/Q Recordings into a single wide-bandwidth file.	\$18,000.00
Software	ZoomOut	ZO-PIQ	ZoomOut Option: PIQ Compiler - Pulsed IQ Compiler. For creating IQ waveform files for playback and analysis by combining PDW and IQ segments at specific time intervals compiled into a single sophisticated test scenario	\$12,000.00
Signal Processor	SigPro-2000B	SIGPRO2000B	SigPro-2000: is an Enterprise class instrument controller, recorder, and data router that can capture and stream IQ Data (<= 1Ghz Real Time Bandwidths) from up to two R&S Instruments simultaneously	\$65,950.00
Signal Processor	SigPro-4000B	SIGPRO4000B	Enterprise class instrument controller, recorder, and data router that can capture and stream IQ Data (<= 1Ghz Real Time Bandwidths) from up to four devices simultaneously	\$97,950.00
Signal Processor	SigPro	SP-GPS/IR-	Adds GPS/IRIG-B Module to SigPro	\$9,000.00
Signal Processor	SigPro	SP-SSD15	Increases memory to 15TB	\$12,000.00
Signal Processor	SigPro	SP-SSD30	Increases memory to 30TB	\$20,000.00
Signal Processor	SigPro	SP-SSD60	Increases memory to 60TB	\$32,000.00
Signal Processor	SigPro	SP-SSD120	Increases memory to 120TB	\$50,000.00
Signal Processor	SigPro-4000B Only	SP-FEDS	FPGA Real-time I/Q processing Development Environment	\$64,990.00

Signal Processor	SigPro-4000B Only	SP-10GBLINK	Adds SigPro to SigPro 10 GB Connectivity over single mode fiber	\$20,000.00
Signal Processor	SigPro-4000B Only	SP-FO-KIT	Fiber Optic cables and QSFP Adapters for 10 GB connectivity	\$1,600.00
Signal Processor	SigPro-2000B to 4000B	SP4-Upgrade	Upgrade Hardware and Software to SigPro-4000B Performance	\$50,000.00
Extended Warranty	SigPro-2000B	SP2K-EXTW	Extended Warranty for 2 additional years for 5 yr total	\$ 15,000.00
Extended Warranty	SigPro-4000B	SP4K-EXTW	Extended Warranty for 2 additional years for 5 yr total	\$ 22,500.00
